Allowable Subject Matter

1. Claims 1-8, 11-13, 16 and 18-24, which have been renumbered as 1-19 respectively are allowed.
2. The following is an examiner's statement of reasons for allowance: Regarding claims 1-19, the prior art of record fails to teach of a method for associating a MSISDN with a temporary IP address within a service network, comprising the step of placing the determined MSISDN into an http header for applications within the service network using http and a system comprising a mobile switching center of a wireless network, where a first server is located within the mobile switching center of the wireless network. The closest reference, McConnell et al. (WO 00/469963), teaches of a method for associating a MSISDN with a temporary IP address comprising the steps of: transmitting a start packet to a database associated with the network, the start packet including a MSISDN and a temporary IP address of the mobile terminal; and storing the MSISDN and the temporary IP address in the database where the MSISDN and the temporary IP address are associated with each other responsive to the start packet, but fails to teach of placing the determined MSISDN into an http header for applications within the service network using http and a system comprising a mobile switching center of a wireless network, where a first server is located within the mobile switching center of the wireless network.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
